[1](#)1. (S) Poloff delivered Reftel A demarche to Nestan Bejanishvili, MFA's Second Secretary of the Security Policy and Euro-Atlantic Integration Department on February 17. Bejanishvili thanked poloff for the information. In response to poloff's point that representatives from the Russian Mission in Vienna informed the IAEA of the removal of all sources in Sukhumi, Bejanishvili informed poloff that the Georgian Mission in Vienna has been instructed to request an IAEA inspection of the Sukhumi Institute of Physics and the Sukhumi Institute for Experimental Pathology to confirm the removal (based on discussion in Reftel B).
